Town & Country Dental Studios Rated as an "Exceptional" Full-Service Laboratory

In a recent independent survey, Town & Country Dental Studios of Freeport, NY, was rated as an "Exceptional" dental laboratory.

The survey was conducted by WJR, an independent consultant, and asked Town & Country customers to rate the laboratory with respect to quality, service, turnaround time, fees, and overall satisfaction. Ratings were then compared to a statistical database of 18,000+ North American dental labs. Warren Rosaluk, president of WJR, determined that Town & Country ranked near the top in every category, and awarded the rare "Exceptional Laboratory" designation.

"Our customers rely on Town & Country to deliver a consistently superior product, supported by the most current technology and the best customer service in the industry," said David Lampert, VP Operations. "This was clearly identified in this survey...and it is the main reason why we keep customers for decades." In fact, Dr. David Schwartz voluntarily added this comment to his survey: "In 20 years of practice, I have found no finer lab in the US. They are the gold standard for dental labs!"

Town & Country Dental Studios is recognized as one of the leading full-service labs serving the Northeast region. Established in 1962, Town & Country prides itself on delivering consistent, high-quality restorations, outstanding customer service and innovative treatment planning solutions. All Town & Country crowns, bridges, implants and veneers are crafted with the pride, service and attention to detail that you can only get from a 3rd generation, family-run laboratory.
