### **Town & Country Dental Studios recognized as Atlantis Components' first NY Metro "Super Elite" Laboratory**

JANUARY 15, 2006, NEW YORK - Town & Country Dental Studios, a leading full-service laboratory in the Northeast, has been recognized as the first laboratory in the New York metropolitan area to attain "Super Elite" status from Atlantis Components, Inc. Status is based on orders for Atlantis custom-milled CAD CAM Abutments. Town & Country reached "Elite" status in June 2005.

Atlantis CAD CAM abutments are at the heart of Town & Country's "Simpl" Implant Abutment System®, which includes the titanium abutment, titanium abutment screw, abutment placement jig, a soft tissue model, analog and crown. "Our general practitioners and oral surgeons are realizing the remarkable benefits our Simpl system has to offer, including dramatically reduced chair time, virtually no component costs, and a fixed-fee that makes case estimates a breeze" said John Ackley, senior production manager at Town &

Country. Doctors supply a fixture-level impression with transfer copings, a counter and bite. For a single unit, "Simpl" restorations costs \$379 plus crown and require 10 business days for fabrication. Visit [BetterImplants.com](http://BetterImplants.com) for information.

Established in 1962, Town & Country prides itself on delivering consistent, high-quality restorations, outstanding customer service and innovative treatment planning solutions. All Town & Country crowns, bridges and implant retained restorations are crafted with the pride, service and attention to detail that you can only get from a 3rd generation, family-run laboratory.

For more information on the Simpl Implant Abutment System or to become a valued Town & Country customer, call 1-800-925-8696, visit their website at [www.BetterImplants.com](http://www.BetterImplants.com), or e-mail [CustServ@tncdental.com](mailto:CustServ@tncdental.com).
