COPY DENTURES

A great service for your patients who wear dentures, and can add a new revenue source to your practice.

A **COPY DENTURE** is exactly that. We precision scan the existing denture and then, using sophisticated software and advanced 3D printers, we produce a highly accurate copy.

Fast, precise and ready in a few days. All for an affordable price, giving your patients a spare denture for that “just in case” moment

- ◆ *Copy Denture made from the Denture being sent to the lab or the Patient comes to lab for scan of existing Denture. Cost: Call for details*
- ◆ *Add a Copy Denture at the same time we are making a Traditional Denture. Cost: Call for details*
- ◆ *Making an additional/ second Copy Denture at the same time. Cost: Call for details*
- ◆ *Reprint, process and finish an Exact Copy of the original Copy Denture in the future. Cost: Call for details*
